### 4. General This policy will be reviewed annually by the Lead IQA

The support team has a finite amount of staff resource and must prioritise requests accordingly. Prioritisation of support according to need will vary according to the severity or complexity of individual cases and no category automatically assumes precedence. The exception to this is basic literacy/numeracy need which will not be classed as a priority. A general guide to the prioritisation and distribution of support comprises:

- Hearing Impairment
- Visual Impairment
- Physical/medical disability
- Autism Spectrum Disorder
- Specific Learning Difference Speech, language, communication difficulty
- Other disability
- Learning disability – moderate/severe
- Learning difficulty – general: literacy/numeracy
- Information concerning individual support need is available on the organisation intranet.
